TAILORM<sup>MADE</sup>

Cabinets

Mechanical & Air lifts make Flatbed Sewing a Reality

Project Trays / Drawers

Specialised Storage Solutions

## Our Philosophy

We know that having the right work station and configuration is important to you, which is why we have designed our cabinets with you in mind. All of our cabinets are designed with functionality and comfort, providing a quality product with exceptional value.

Choose from a range of sturdy sewing and craft furniture to compliment your home decor. Our range caters to all spaces and work areas with optional extras such as acrylic inserts to enhance your hobby experience.

## Why Choose TailorMade?

At Tailormade, we specialise in sewing furniture. With our furniture, storage solutions abound through the use of specialised trays ideal for threads, bobbins, notions and even a place to hide your extra machine.

At Tailormade, we know everyone is different, that is why we offer 6 sewing cabinets, a cutting table and storage unit to create the perfect setup for you. We also offer alternate height and left or right options on some of our cabinets.

Made from quality MDF with a wood grain melamine veneer, our cabinets offer exceptional value for a sturdy build.

Recessed Hinges for Snag Free Sewing

Units Available in Beech or White

**make your dream hobby space a reality**

Acrylic Inserts Available for Flatbed Sewing

## Fold Down Feature

Many of our cabinets fold down for easy storage - perfect for those limited by space or using them in a multi-purpose room.

Our modular Elements unit can be configured to create multiple setups and can be built upon to create your dream hobby room.

Available in beech and white you are sure to love your new hobby room.

## What is a Mechanical Lift

Many of our cabinets include sewing platforms with a mechanical lift that sets your machine to 3 adjustable levels. This means you can have the machine raised to the highest level for regular sewing or drop the platform to the second position for flatbed sewing. This requires the additional purchase of an acrylic insert that will create a flat surface and remove and remove any gaps for the fabric to fall into. Why is this an extra? There are hundreds of machines on the market all with different shapes and sizes, simply write down you model make and number and the insert is made to fit your machine perfectly.

The third position is to completely lower and stow your machine when not in use and can be covered using a wooden panel to create an even larger work surface.

## Quilters Vision

Everything you need in one sewing cabinet - extra large surface, storage caddy and fold down design. Featuring the largest machine platform you will fit the best machines on the market here. The large back leaf is ideal for quilting and keeping larger items under control.

Quilter's Vision is our largest sewing cabinet and its spacious design is ideal for larger sewing studios. Gorgeous in design, the removable caddy can be positioned where you feel is best. Featuring a large back leaf and side panels - it is made with quilters and dressmakers in mind.

### Features:

- Large Machine Lift Platform 58.5 x 29cm
- Large Back Leaf (140 x 49.5cm) to increase workspace
- Includes 3 Drawer Storage Caddy

## Gemini

**This compact unit opens up to reveal a spacious sewing cabinet ideal for smaller studios. With snag-free storage compartments and shelves, you will have a more accessible and functional workspace to create the ultimate masterpiece.**

A fantastic unit for those who want everything all in the one area but are limited by space. With all the benefits of specialised storage and a back leaf to keep your projects off the floor this unit is sure to impress.

### Features:

- Large machine lift platform of 50cm x 26cm
- Large back leaf of 77cm x 30cm to increase workspace
- Snag-free sewing with recessed hinges
- Easy to roll, lockable castors
- German quality 3 step air lift: stores, flatbed & free-arm sewing
- Recessed, snag-free storage compartments and shelves
- Spacious leg room with foot rest

Dimensions	Width (cm)	Depth (cm)	Height (cm)
Open	154	74	74.2
Closed	77	46	76

## Eclipse

**Our most popular cabinet - featuring a large work surface with specialised storage for notions and tools, the hidden drawers and cupboard can even fit your overlocker!**

The Eclipse provides an all-in-one sewing cabinet with the opportunity to keep everything you need to create your masterpiece within arm's reach. Available in right or left hand configurations, the Eclipse is tailor made to suit you.

### Features:

- Large machine lift platform of 58.5cm x 29cm
- Large back leaf of 110cm x 60cm to increase workspace
- Generous storage space for an overlocker and sewing machine
- German quality 3 step air lift: stores, flatbed & free-arm sewing
- Snag-free sewing with recessed hinges
- Easy to roll, lockable castors
- Recessed, snag-free storage compartments and shelves
- Spacious leg room with foot rest

Dimensions	Width (cm)	Depth (cm)	Height (cm)
Open	178	156	74.5
Closed	110	50	76

## Elements

White

Create your perfect sewing room starting with the essential combination of sewing table, storage chest and drawers.

This modular unit is ideal for those short on space or for those who want to create the best setup to suit their needs. Simply add units to create more storage or sewing areas and alter their position to suit you and your space!

### Sewing Table

The sewing table features a manual lift to provide the opportunity for free-arm or flatbed sewing

- Large machine platform of 58.5cm x 29cm
- Mechanical lift: flatbed and free-arm sewing
- Recessed, snag-free storage compartments and shelves

### Storage Chest

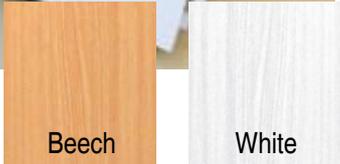

Hide your overlocker or works-in-progress with the storage chest. Its deep space will fit most overlockers and the open area underneath lets you store any extra bits & bobs.

### Sewing Drawers

Four-drawer storage allows quick access to essential hobby tools and supplies. Lightweight and removable, the trays can move around the room with you, creating an easy work flow.

Dimensions	Width (cm)	Depth (cm)	Height (cm)
Drawers & Chest	50	50	74
Table	120	50	74

## Cutting Table

A perfect addition to any hobby room, the cutting table provides a large stable work surface of 1.8m x 1m.

With its fold out doors positioned magnetically, the Cutting Table is much more stable than other fold down tables in the market. Utilising this fold down design, you are ensured a tidy work area whilst providing quick access to the storage shelves. Not just for cutting, the large surface is ideal for preparation work and piecing with enough leg room to sit at either end.

Available in two options:  
 Standard (CTTABLE) as shown on right  
 Mark 3 (CTTABLE MK3) as shown in white above  
 - which includes drawers

CTTABLE	Width (cm)	Depth (cm)	Height (cm)
Open	181	100	87
Closed	51	100	87

CTTABLE MK3	Width (cm)	Depth (cm)	Height (cm)
Open	181	100	95
Closed	51	100	95
